

Chemical Release Investigation Kit & Template (CRIKT) For Local Health Departments

CHEMICAL	TRADE NAME(S)
Chlorine	Molecular chlorine
PREPARING FOR THE INVESTIGATION	
<p style="text-align: center;">Know the Agent</p>	<ul style="list-style-type: none"> • Chlorine is a yellow-green gas with a strong and irritating odor. <ul style="list-style-type: none"> ○ Read about chlorine in the Chlorine Fact Sheet. ○ For additional information, visit: www.atsdr.cdc.gov/substances/toxsubstance.asp?toxid=36 • Contact: <ul style="list-style-type: none"> ○ Public Health Preparedness & Response Branch (PHP&R): 888.820.0520. ○ N.C. Emergency Management Desk: 1.800.858.0368. If appropriate, contact local Emergency Management. • Print and review form: <ul style="list-style-type: none"> ○ Chemical Exposed Persons Line List.
CONDUCTING THE INVESTIGATION	
<p style="text-align: center;">Evaluate Release</p>	<ul style="list-style-type: none"> • Define scale/scope of release (work with N.C. Emergency Management, HazMat, an Environmental Health Specialist, N.C. Department of Environment and Natural Resources (N.C. DENR), and U.S. Environmental Protection Agency (U.S. EPA) if applicable).
<p style="text-align: center;">Identify Route of Human Chemical Exposure</p>	<ul style="list-style-type: none"> • Identify route of exposure: <ul style="list-style-type: none"> ○ Inhalation ○ Ingestion ○ Dermal (Skin) ○ Injection • Interview responders and/or exposed individuals to obtain additional information

	about the chlorine release within 24-hours.
Describe Exposed Population	<ul style="list-style-type: none"> • Determine the following: <ul style="list-style-type: none"> ○ Geographic area affected. ○ Population affected (general population, employees, and residents). ○ How population exposed (in vicinity, inhalation, or direct contact). ○ Define cases within the exposed population. ○ Contact OEEB (919.707.5900) to assist in developing a risk assessment to be shared with officials. ○ Once completed, provide OEEB with the Chemical Exposed Persons Line Listing.
Implement Control Measures to Prevent Additional Exposures	<ul style="list-style-type: none"> • Decide on measures to protect citizens and the surrounding communities. • The environmental health specialist will consult with OEEB to discuss next steps to ensure no additional individuals are exposed. • Inform residents/businesses of the chlorine release through local emergency notification system, local TV and radio. Important points to include: <ul style="list-style-type: none"> ○ Location of release. ○ Geographic area affected. ○ Shelter-in-place instructions. ○ Where to evacuate if needed. ○ Where to find shelter. ○ Where to seek medical care. ○ For more information, please listen to your local radio station or watch your local news channel. • Work with your local incident management team and local health director to determine steps to be taken to re-enter residences/businesses. <ul style="list-style-type: none"> ○ The local incident management team will determine when residences/businesses are

	<p>acceptable for re-entry and alert the local health director, who will then participate in the final decision.</p> <ul style="list-style-type: none"> ○ Your local health director will then communicate with the on-scene coordinator. ○ The on-scene coordinator will then communicate to the community when they are permitted to return home or to their place of employment.
INVESTIGATION RESULTS	
Case Finding	<ul style="list-style-type: none"> ● During the course of the investigation, interview other exposed individuals for symptoms related to the chlorine release. <ul style="list-style-type: none"> ○ Work with your local medical facilities, local incident management team and/or the first responders to compile the exposed persons' information. ● Advise symptomatic individuals, especially children, to see their healthcare provider immediately for evaluation. ● Once interviews are complete, communicate with: <ul style="list-style-type: none"> ○ Local hospitals to determine total number injured, hospitalized, ED visits, and deceased. ○ N.C. DETECT, North Carolina's state syndromic surveillance system for additional information: 919.843.2361.
Routine Precautions	<ul style="list-style-type: none"> ● Communicate the following control measures with resident/business owners. <ul style="list-style-type: none"> ○ Open all windows once residences/businesses are re-entered. ○ Wipe down all exposed surfaces.
SPECIAL CONSIDERATIONS	
Risk Communication	<ul style="list-style-type: none"> ● N.C. DHHS Communications Office 919.855.4840 is available to assist local health departments as needed.
